

## About CAPIER

Prof. Ranganath M. Singari basically an Industrial Production Engineer felt the necessity of joining all technical people on a single platform and took an initiative of a research centre, CAPIER at Delhi Technological University. He invited likeminded people from the University and Industries and now CAPIER is supported by many faculty and students of almost all departments.

CAPIER, Centre for Advanced Production and Industrial Engineering Research has been established on 8 April 2015. CAPIER is known for organising expert lectures, workshops and industry institute interactions. CAPIER invite B.Tech. & M.Tech. students for internship during summer and winter holidays.

CAPIER also organises visit to industries for motivating the students towards advanced technology. CAPIER holds a name in the institution for supervising many good projects for B.Tech., M.Tech. and at the level of Ph.D. CAPIER also support IJAPIE, an international journal in the area of production and industrial engineering.

CAPIER initiated organising an international conference in the name of ICAPIE. The first international conference ICAPIE-2016, and was a great success. The second international conference ICAPIE '17 was arranged in partnership with many institutions and made a name of its own. The proceedings of the conferences were greatly appreciated.

CAPIER also support faculty development programs and staff development programs. AIM-2015 and SDTSMT-2015 were conducted successfully with sponsorship of Teqip-II. AMOM 2017 a two weeks programme was marked as best FDP by the participants.

Industry Institution Interactions were held regularly. A talk on ROBO and practice of Robotics and Automation was organised. CAPIER at Delhi Technological University is getting good name and growing with experienced faculty and budding researchers.
